

JHON GONZALEZ

WEB & APPS DEVELOPER

PROFILE

As a web and mobile developer, I have extensive experience in developing web and mobile applications for various platforms and devices. I have worked with a variety of technologies and programming languages such as HTML, CSS, JavaScript, React, React Native, Node.js, Java, and Swift. I have experience in both designing and developing applications from scratch, as well as optimizing and maintaining existing applications. I have worked on projects both individually and as part of a team, and I have proven skills in problem-solving, collaboration, and effective communication.

GENERAL KNOWLEDGE

WORK EXPERIENCE

- **Perfums4U**
JUNE 2022 - MARCH 2023
Designed and developed e-commerce websites using the Shopify platform.
Developed and maintained several Shopify stores for a company with over 50 stores in the United States.
Worked collaboratively with design and marketing teams to ensure stores had a consistent look and functionality in line with the company's brand.
Implemented custom solutions in Shopify to meet the specific needs of the company, such as custom payment and shipping system integration, implementation of third-party apps, and development of custom order processing workflows.
- **Engagement sas**
MARCH 2021 - MARCH 2022
Designed and developed a mobile application using (Kodular, Kotlin, SwiftUI, Xcode).
The mobile application I developed has been used by over 500 users worldwide.
Created a functional prototype of the application and worked in iterations to improve its functionality and usability. Worked on multiple developments as a frontend developer, using (HTML, CSS, JavaScript, React, Vue, WordPress, SQL, etc.).
- **ELECTROSYSTEM SAS**
OCTOBER 2019 - 2020 JUNE
Responsible for developing functionalities using CRUD and consumption of APIs Rest according to the requested needs.
